LOW ARMS

For Molnar Hoists M245 ‘Universal’ Two Post Hoists

- Optional Factory Fitment: M245-A-SSLSS (+L)
- Retro-Fit Option: 25Q17001

Features

- 95 mm minimum pick-up pad height
- Designed specifically for low, performance vehicles and picking up on the vehicle’s sill panels. (NOTE: Not designed for chassis pick-up and not recommended for use with Wide Option)
- Arms designed to maximise clearance for car body and body kits.
- Asymmetric arrangement suit opening car doors for easy vehicle access.
- Full 4,500 kg capacity to maximise the range of vehicles that can be lifted
- Compatible with standard height extension accessories.
- Available as a simple retrofit option to upgrade your existing M245
- Standard in “Molnar Red”, available as Custom Colour Option (+C)

The M245 Low Arms were designed to provide the lowest practical pick-up height for performance and sports vehicles. The unique Low Arms are optimally shaped to ensure strength, safety and pick-up point precision.
