Germany

## MID-RISE SCISSOR LIFT

# SPRINTER

## The top mid-rise lift

With a lifting height of 990 mm, the SPRINTER is your best ally for most of your workshop activities. The SPRINTER is easy to install and easy to move. A solid steel construction and a premium quality hydraulic system make it enduring and reliable, ready to lift everything, from very small cars up to off-road vehicles and heavy SUVs.

- ✓ Can be installed without bolts on almost every flat and solid surface
- ✓ Anti-skid lifting platforms are galvanized and lengthwise adjustable with one hand
- ✓ Solid steel construction

## Covers most of your repair shop activities

The SPRINTER is an efficient and mobile solution for tire service, painting, body work and more.

**360° access** brings you a vast range of possibilities.

## Reliable hydraulic system

The hydraulic system of the lift works with two independent cylinders. The mechanic synchronization is done by torsion bars at the bottom of the lift: No wear, no noise.

## THE PLUS FOR YOUR SHOP

- **Flexible**  
This lift is easy to move with the optional mobile set
- **Fast and easy to set up<sup>2</sup>**  
We deliver the lift fully assembled after being tested at the factory
- **Fast lifting and lowering times**  
The powerful oil submerged motor in the power unit guarantees short lifting and lowering times
