Nussbaum

Height: 4017mm
Lifting height: 1990mm

Drive through:
2395mm

Security locking system in both columns

3000kg Lifting Capacity

Adjustable asymmetric lifting arms for optimal door clearance
Pads: 95-140mm

Hyperflow: automatic synchronisation

- no cables
- no pulleys
- no heavy cross-beam
- easy installation

1 pulling cylinder per column equipped with the Hyperflow technology

No base frame

Min. Lifting Time: 19 seconds

Technical data

POWER LIFT 2.30 K	
For passenger cars and SUV	
Long arm extraction (mm)	940 - 1495
Short arm extraction (mm)	595 - 800
Installation width (mm)	3100
Lowest lifting point (mm)	95 - 140
Pickup pad	Single
Lifting height (mm)	1990
Column Height (mm)	3967
Total Height (mm)	4017
Drive through width (mm)	2395
Distance between columns (mm)	2630
